OVERVIEW

A Detail-oriented Full-Stack Developer with expertise in Java, Spring Boot, React.js, REST APIs, and SQL, supported by knowledge of data structures, algorithms, and software engineering principles. Ability to design secure, scalable applications and collaborate effectively in agile environments.

EDUCATION

CDAC — Kharghar, India
Post Graduate Diploma in Advanced Computing — August 2025 - February 2026
Percentage: 66.13%

Vishwakarma Institute of Information Technology — Pune, India
Bachelor of Technology (B.Tech) Electronics and Telecommunication — July 2021 - July 2025
CGPA: 8.61

Sir Parshuram Bhau (S P) Junior College — Pune, India
Higher Secondary Certificate (HSC) — July 2019 - July 2021
Percentage: 82.83%

Abhinav Vidyalaya High School — Pune, India
Secondary School Certificate (SSC) — July 2018 - July 2019
Percentage: 86%

SKILLS

Programming Languages: Java
Libraries/Frameworks: Spring boot, Reactjs, Nodejs
Tools/Platforms: Git, GitHub, Postman, Docker
Databases: SQL
Soft Skills: Problem Solving, Communication, Collaboration, Leadership

PROJECTS

ExpertTalk | Link — *Java (Spring Boot)/.NET, React, MySQL*
- A Developed **ExpertTalk**, a real-time consultation platform enabling users to browse experts, book paid sessions, and communicate via live chat.
- Built secure and scalable backend APIs using **Spring Boot /.NET** with **MySQL**, and a responsive frontend using **React.js**.
- Implemented **JWT-based authentication**, **SignalR** for real-time messaging, and **Razorpay** integration for payment processing.
- Designed role-based modules for users, experts, and admins, following a clean API-driven architecture to ensure scalability and maintainability.

Placement Hub | Link — *Spring Boot ,React, MySQL*
- Developed **Placement Hub**, a web-based Training and Placement Management System to centralize student profiles, training schedules, company data, and placement records.
- Built backend services using **Spring Boot** and a responsive UI with **React.js**, ensuring efficient data handling and smooth user experience.
- Implemented **role-based authentication** to provide secure access for students and administrators.
- Reduced manual effort and improved coordination by automating placement workflows and enhancing transparency in the placement process.

GreenPulse India | Link   *React, Node.js, Express.js, MySQL*

- Developed **GreenPulse India**, a full-stack NGO management platform enabling users to explore initiatives, request recycling pickups, and make online donations.
- Built RESTful APIs using **Node.js** and **Express.js**, and a responsive frontend with **React.js** and **Bootstrap**.
- Implemented **JWT-based authentication** and role-based modules for admins, volunteers, and delivery staff with real-time status tracking.
- Streamlined NGO operations by centralizing event, donation, and recycling management, improving transparency and coordination.

Certification

- **IBM Full Stack Software Developer Professional Certification | Link**
- **IBM Introduction to Agile Development and Scrum |Link**

Extra-Curricular

- SEO & Web Developer Intern, Avis Pixel (Nov 2024 – May 2025): Developed responsive websites using HTML, CSS, React, PHP, and MySQL, and implemented SEO strategies that improved website visibility and search rankings.
- Held key leadership roles at IEEE VIIT Student Branch and Institution's Innovation Council (IIC), VIIT, including Advisory Board Member, Joint Secretary, and Department Head, driving student engagement, innovation initiatives, and industry collaboration.

Other Details

Gender: Male
Date of Birth:19/07/2003
Nationality: Indian
Passport: Available
Languages Known: English, Hindi, Marathi
Hobbies: Practicing meditation and nurturing plants.

I hereby declare that the information given above is true to the best of my Information knowledge belief.
